

## BRMS Virtual Career Exploration Experience

Hello Chester Families,

We hope this message finds you and your families well and healthy. As you all know, the onset of Covid 19 had forced us to cancel our Career Day this year, which was scheduled for Friday, March 13.

Career day is an annual event our students and faculty look forward to each year at BRMS. Year after year, we are amazed and inspired as we learn about the various jobs that keep our world functioning and the stories that brought you to where you are. As a community rich in knowledge and experience, you have always been generous in sharing your time and experience with our students.

As we continue with distance learning and look for ways to keep our students engaged, **in lieu of Career Day this year, we are offering an opportunity to all of the Chester community for anyone who would like to showcase their jobs/careers. We are asking you to share what you do and let us know the impact that Covid 19 has had on what you do and how it has changed course for the operation of your business.**

Our goal is to have students consider the future while understanding how we adapt to change and work to bounceback. We are asking for a 5-8 minute pre-recorded video from anyone who is interested in the opportunity to provide a virtual career exploration experience for our students. Before getting started, please review the guidelines below:

### **By submitting your video, you agree to the following:**

- ❖ Video recordings must be done using the Flipgrid platform.
- ❖ Your video must be no more than 8 minutes in length.
- ❖ You agree to allow your video be shared with students and staff in the Chester School Community.
- ❖ **Videos are due by Friday, May 29, 2020.**

Ready to get started? Please continue to Page 2
